Dear Sir,

30 MAR 2022

I would like to object to the new proposed development at Bognor Golf Club.

The roads near the club are already crowded at school opening and closing times with many cars parked on the pavements, so much so that I find it difficult to walk with my wife, who needs an arm to hold on to because of her health, at those times.

I also find it difficult getting an appointment at Felpham Health Centre at present, with extra patients it is bound to get worse.

This development is much more hazardous for the elderly.

Yours faithfully
