At a time when rewilding is a hot topic, it is bizarre that proposals are made to build on land that is currently green open spaces. The land we are talking about is a mix of conservation area; a golf course; and grassland. I understand that the plan is to build a 'replacement' golf course along the A259 - what is the point of that? If the BGC members are unhappy with the outlook onto the new A259 surely they will be unhappy with the outlook onto the old A259! More importantly is the devastation the building of 480 homes will cause to the local wildlife - their habitat ruined; trees of many years standing pulled down. Already over busy amenities (schools, NHS surgeries, roads etc) will be unable to cope. This open space is one reason that many people have moved to the area. To be able to walk into nature from your doorstep and enjoy the health benefits that brings. This land is adjacent to the Rife and surely if the land is built on floodwater will have less places to escape and likely cause flooding to adjacent properties.

Your views as made above will be considered before the application is determined.
