For the attention of Mr D Easton

Dear Sirs

Proposed Development on Bognor Golf Club Land

I strongly object to these proposals which beggar belief given the existing levels of traffic congestion, surface water run-off, NHS systems at bursting point, school class sizes and job opportunities, to name but a few considerations.

It seems that every piece of green field in the area is either being built on or is up for grabs. Local trips to Yapton, Barnham and Littlehampton reveal this all too clearly. There has long been a loggerhead situation between planners who have to implement the provision of government housing targets and the Environment Agency which is rightly opposed to providing houses on flood plains.

Enough is enough so let's just appreciate what little delightful countryside we have left and put the houses somewhere they will be appreciated as a roof over the heads of folk who are desperate for work.

Yours faithfully

[REDACTED]
Ian Mills
