Overall, this is an excellent proposal which shows creativity, ambition and looks to address the competing housing and quality of life issues of the local community, that are inevitably associated with such developments.

It provides around 70 acres of recreational land, space equivalent to 5 King Georges fields, for use by the local community. Currently the use of this space by the non - golf playing community is very limited.

It provides for millions of pounds worth of local community infrastructure investment, to support the increase in housing and population.

It enables the development of a high quality golf facility that will provide increased amenities for the local community for people of all generations.

The wider area will benefit economically from having a prestigious new golfing development.

More housing accommodation will be provided to support people in housing need and the population growth in this area.

This proposal provides multiple benefits to a cross section of people in the community as well as developing the local area.

Your views as made above will be considered before the application is determined.
