Noted in the Arun newsletter that the council is committed to planting 30,000 trees as part of its environmental plan. Quite how this squares with the proposed destruction of the thousands of trees and shrubs on the present golf course site will need to be addressed, and whether contributing towards planting trees on a new golf course would be classified as planting new trees under this initiative, when in fact it would not be supplementing existing trees in the district, but restoration work. This needs to be clarified for the residents of Arun in the event that this proposal is approved. Thank you.

Your views as made above will be considered before the application is determined.
