Site Address: Bognor Regis Golf Club Downview Road Felpham PO22 8JD
Description of works: Outline planning application with all matters reserved, except means of access, for the erection of up to 480 new homes (C3), the formation of a new means of access onto Golf Links Road, together with the creation of new surface water drainage, new landscaping and habitat creation, ground works and other infrastructure and the retention and re-purposing of the retained club house (F2). This site also lies within the parish of Yapton, affects a Public Right of Way and is a Departure from the Development Plan. This application is subject to an Environmental Statement.

Thank you for your internet representation made on 15th June 2022 which has been recorded as an objection with the comments as follows:

OWPC48180

Clearly this is unacceptable to the environment, recently a planning application was rejected due to the great crested newt in hoe lane, the amount of wildlife on the current golf course is far greater and is grounds for refusal.

Downview road is not fit for additional traffic having had people killed and injured at the traffic lights. many years ago I wrote to the highways raising concerns after a gentleman was seriously injured in downview road & was told nothing could be done until there was a fatality. If and "when" this happens anyone who accepts this proposal should accept responsibility for the consequences. If you go down downview road at school time it is scary the amount of cars, school children running and riding the gauntlet across the road.

When the last development was done a new school and doctors was going to be built "will this now be done". the current facilities cannot cope. With increased housing and crime, will more Police be "funded and provided, currently under staffed".

There are so many reasons why the application is not plausible. "dose greed and money out way the the cost on the environment and life!!!!?".

Your views as made above will be considered before the application is determined.
