Thank you for your internet representation made on 15th June 2022 which has been recorded as an objection with the comments as follows:

OWPC48184

I use the golf club public rights of way walks and object to the land being built on. It will negatively impact on the diverse wildlife that inhabits the green space as well as local residents' quality of air by removing the trees and open space as well as the increase of pollution and anti social behaviour due to the density of housing. It will also be detrimental to the local community with the addition of so many people putting strain onto already over stretched resources, i.e. doctors, schools, etc. Finally the added congestion will make life intolerable, adding noise and pollution to the area. Surely when we are so concerned about climate change it makes sense to keep our local open, green spaces, not get rid of them. There has already been significant development in the area.

Your views as made above will be considered before the application is determined.
