Thank you for your internet representation made on 12th October 2022 which has been recorded as an objection with the comments as follows:

OWPC51467

Felpham Parish Council have discussed West Sussex County Council Highway's final response to the traffic impact at Downview Road junction with the B2259 and are deeply disappointed in the response and strongly object to the acceptance of the application. Felpham Parish Council further find that the mitigated queue lengths are totally unacceptable to Felpham Parish Council on behalf of the village. (258M = queue length of 51 cars, 163m = queue length of 32 cars based on an average car length of 5m).

Felpham Parish Council are highly concerned at the increased risk to the health and safety of pedestrians and cyclists that the rephasing of the traffic lights will cause and this proposal undermines all the risk management solutions that have been implemented as a result of the number of previous incidences including fatalities. Felpham Parish Council believe that this proposal takes the village back to the situation that it had prior to the construction of the Charles Purley Way and are deeply disappointed that the mitigation works that took place following the Blakes Mead development will now be negated.
