After Arun insisting that Barratts build the A259 Felpham bypass in order to alleviate the traffic problems through the village. I find it hard to understand how you can now justify additional traffic not only on the Felpham village road, for which the bypass was built, but along 'Downview road' which is a 20mph zone and a school access route. This decision is not only dangerous for children and residents on that route but a complete dismissal of the views of the local residents in the village itself.

The plan for 480 new residences will not just be one vehicle per household and if you include children of driving age, there are likely to be 2, 3 or more vehicles per household all using the 'Downview road' access.

This is not acceptable.

Please register this as a serious objection.

Regards

Alan Rutter
