Dear Sir/Madam,

Bognor Golf Club
Ref: FP/274/21/OUT

I attach recent bird counts on Bognor Golf club land that we have commissioned leading ornithologist Andrew Smithen to do. This is a snapshot taken from the footpath only. However, it shows the importance of the area as habitat for wild birds. Given the proposed social housing near the footpath, you will see that it will have a devastating effect on bird counts – with dozens of cats roaming and gardens or yards that are not bird friendly.
Please take this as a further objection.

Yours faithfully,

Simon Wild
