Application to Connect to the Public Sewerage System - Section 106 Water Industry Act 1991. Location: 20 Sea Drive, Felpham, Bognor Regis, West Sussex, PO22 7NE.

Dear Mr Boots,

Further to your recent application to connect to the public sewerage system at the above location, I am pleased to inform you that your proposal to connect to the surface water sewers via an existing manhole has been approved subject to the following provision: -

Connections to existing manholes and arrangement of pipe junctions within the manhole should be in accordance with Sewers for Adoption 7th edition and Southern Water guidance documentation.

- Please note, No land drainage or groundwater is permitted to communicate to the surface water network.

- The angle of the connecting pipe work at the point of entry through the manhole wall shall not be less than 90-degrees relative to the direction of flow in the main sewer at the point of exit from the manhole.

This letter is for the purpose of approval to permit communication to be made to the public sewer, under S106 of the Water Industry Act 1991.

This approval is to the means and mode of construction.

It does not confirm that capacity is available for the proposed development in the public sewer network. Lack of such capacity may increase the risk of flooding and pollution and is a material drainage matter, for the Planning Authority to consider, by way of appropriate Planning Conditions. The availability of such capacity may be assessed through the Capacity Check process.

Any works required to provide such capacity may require the application of a S98 application and agreement.

This letter should not be considered as approval by Southern Water, to the discharge of any relevant Planning Conditions, relating to drainage.

If there is any change in the approved connection point, as above, you must provide us with your revised drawing and obtain our approval for the revision prior to the connection being made.

Please contact Mick Vince our Assistant Project Manager for this area on 07803 259227 giving at least 2 full working days notice, in order for a mutually convenient date and time for the inspection of the works to be arranged.

If connection is to be made through the lands of another, the works may not proceed until the Landowners consent has been obtained.

In approving this application, it is assumed that you have obtained any necessary Building Regulations Approval and /or Highway Authority Road Opening License.

I refer you to Southern Water Health and Safety Advisory which can be viewed in the Developer and Builders section of the Southern Water website as the link below:
<https://www.southernwater.co.uk/health-safety-advisory>.

This approval is given on the basis that you will review this Advisory and take the necessary actions with regards to Health and Safety.

Yours sincerely,

Developer Services
