Subject: FP-30-19-PL Mr & Mrs Shattock's Objections

Dear Arun Planning,

Please find attached our Objections to FP/30/19/PL, specifically in relation to its potential effect on Footpath 153.

As we asked before, our principle Objections to FP/30/19/PL have already been submitted and placed by you online in colour. Thank you. We hope though you understand that to be sure this time as well, we repeat our request below.

We use some colour in our objections and this has produced a problem in the past, because Arun Planning's redaction software could not reproduce this, leaving only a black and white copy to go online. As you can imagine, this made some of it unintelligible to readers, as we use colour to refer to. The solution in the past was simply to send copies with nothing in them requiring redaction, which we have done this time. Would you therefore ensure the attached does not inadvertently slip through the same old process, but arrives in colour online please?

Kind regards

Jean and Bernard Shattock
