Dear Stuart,

I agreed to EOT until 17th april 2019.

Im not sure I understand the following sentence which i quote from your email below:

Had you also mentioned submitted some further info to support your case?

I believe my previous email resolves any queries regarding the further info that we might be sending. we do not intend to send anything further.

pls let me know .

thanks,

Adrian.

A,

My mistake, with the consultation going on today on biodiversity the earliest decision we can work towards at this present time is 16th April including the ecology consultation period.

Please respond and accept this revised date.

Had you also mentioned submitted some further info to support your case?

Thanks

Dear Stuart,

thank you for the below.

we are willing to grant an extension of time until 10th april.

I appreciate the invitation to provide further information in respect of the application but we are not inclined to add any further rationale behind the planning statement. Our position is that there is a presumption in favour of sustainable development on this site and this has been stated by a previous inspector. The scheme is sustainable. Therefore, either it should be approved on that basis or the onus is on the decision makers to find reasons to refuse it. WE are unaware of any reasons to refuse and we submit that the application complies with all Local and National planning policy guidance. please determine the application on the evidence before you.

thanks,

Adrian.

Adrian,

Unless you've missed out a few pages to you submission we are not quite understanding how the DAS/Statement dated the 12th March 2018 provides the relevant justification on the basis of the Policy provision?

The previous proposal on the site was considered before the 2018 Local Plan was adopted, therefore it is even more important that your justification of the case is based adopted plan.

In addition following the Biodiversity information as submitted a further 14days consultation will need to go ahead to allow for local residents to comment interested parties.

I would like to invite us working towards a revised decision date of Wednesday 10th April 2018.

An agreement to an extension of time for the above date would also be helpful.

We look forward to your correspondence.

Hi Stuart,

I regret, I'm slightly confused.

The planning statement I sent on 12th March explains that the design concepts are in direct response to the inspectors' decision and the design concepts have been specifically tailored to systematically address each of the inspectors' concerns.

Does that now make sense?

Thanks,

A

Morning Adrian,

Further to your email dated 12th March, I recall from our meeting I asked you to provide a justification in light of the appeal decision, and not just simply the design concepts.

National guidance:

NPPF National Planning Policy Framework
NPPG National Planning Practice Guidance

The Local Plan (2018) policies:

DDM1 D DM1 Aspects of form and design quality
DDM2 D DM2 Internal space standards
TSP1 T SP1 Transport and Development
DSP1 D SP1 Design
WDM3 W DM3 Sustainable Urban Drainage Systems

Neighbouring Plan (for Felpham) policies:

Felpham Neighbourhood Plan 2014 POLICY ESD1	Design of new development
Felpham Neighbourhood Plan 2014 POLICY ESD11	Increasing the energy efficiency of our buildings
Felpham Neighbourhood Plan 2014 POLICY ESD5	Surface water management
Felpham Neighbourhood Plan 2014 POLICY ESD10	Design details
Felpham Neighbourhood Plan 2014 POLICY ESD8	Building design

This further justification of your case would be helpful to allow the Authority to assess the merits of the case going forward.

In addition, thank you for the street scene plan which has now been added to the file.

I look forward to this further information.

Subject: south road felpham planning statement

Dear stuart,

Furten to our site meeting which enabled you to gain access, I now attach a planning statement which seeks to explain the design concepts.

as a further thought, we have no objection to adding a condition saying that the driveway and turning areas can be a semi permeable "green" surface such as the crate structures that allow grass to grow up through it.

additionally, we have no objection to adding a condition that the roof to the bin, bike and delivery sheds all be in sedum.

both solutions add the desire to be sustainable, assist drainage and create a more verdant and soft landscape.

I also plan to provide a street scene as requested.

I trust this is in order,

kind regards,

Adrian.
