Subject: RE: Planning Consultation on: FP/30/19/PL

App No: FP/30/19/PL

Address: 10 South Road Felpham PO22 8EF

Proposal: Demolition of chalet & erection of 1 No. 4 bedroom chalet (resubmission following FP/234/17/PL)

Bats

The biodiversity checklist submitted with this application has been completed stating that a bat survey has been undertaken on this site. Please can this report be submitted to us as part of the planning application prior to determination. If this is not possible we will require that a new initial bat survey is undertaken on the building to determine if there is evidence of bats roosting within the building. If there is evidence of bats, further bat activity surveys would be required and mitigation strategies will need to be produced. These surveys plus mitigation strategies required will need to be submitted as part of the planning application prior to determination. Due to the level of protection bats hold within European legislation, if bats are found to be roosting onsite the application will also require a Natural England Protected Species License for the works.

The lighting scheme for the site will need to take into consideration the presence of bats in the local area and the scheme should minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding.

Nesting Birds

Any works to the trees or vegetation clearance on the site should only be undertaken outside of the bird breeding season which takes place between 1st March – 1st October. If works are required within this time an ecologist will need to check the site before any works take place (with 24 hours of any work).

Kind Regards

Liz
