Dear Sir / Madam,

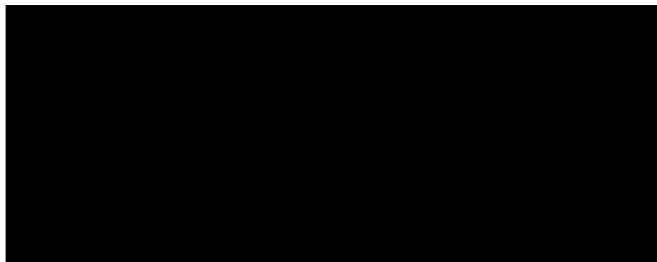

Re: FP/312/17 HH

Thank you for advising us of the result of the above planning application. We believe this extension will affect the drainage, and had hoped / expected some condition in the planning agreement to ensure that the drainage situation is well investigated and drains / soakaways put in to ensure that flooding is eliminated. In this we were disappointed, and now anticipate more flooding in our garden, and sincerely hope that it does not affect the house.

As to the "large building located within the front garden area, this building is not part of the current application". Can you please let me know what action you will be taking regarding this building? It has not been subject to any planning application, affects the light in our sitting room, is too close to our boundary wall, and adversely affects the drainage.

Thankyou

Yours faithfully,

J. Clarke
