Importance: High

Hi
Can the attached amended plans be put on file. They will replace 1290/100 A, 1290/101 & 1290/102A

Thanks

Mark

Dear Mr Stefanski

I am dealing with your planning application. I have noticed there may be a discrepancy between the block plan and the floorplans. The proposed elevations suggest the rear extension is set in from the side boundary approximately 0.5m however the proposed site plan and floorplans suggest it is up to the boundary suggest it is up to the boundary. Also the existing location plan appears to show the proposed extension could this be removed.

I would be grateful if you can amend the location plan and also if whichever of the proposed site plan or floorplans or elevations is incorrect please can you amend.

In addition can you clarify what the white band is on the rear elevation of the proposed rear extension if this is part of the roof the height is different from the height measured on the side elevation. Therefore, if you can clarify this aspect also

If you can e mail me the revised plans as soon as possible and we can progress the application before 6 April deadline.

Thank you

Regards

Mark Jones
