Dear Maria,

I hope you are keeping well.

Further to the submission of the above application please find attached a revised Transport Statement by consultants Bright Plan.

After the application had been submitted it was realised that the drawings inserted into the document on pages 5, 7, 10, 20, 21 and 24 related to an earlier feasibility proposal. As such, the document has been revised to show the submitted red line of the application site together with the currently proposed site plan.

I would be grateful if you could place this revised Transport Statement on the application file that is made public online.

Many thanks for your help.

Kind Regards,

Matthew
