Your Ref. FP/103/10

My Ref. RT/F/09

25th February 2011.

Dear Mrs. Leeson,

Discharge of Condition No. 6 - Erection of two dwellings at 15, Limmer Lane, Felpham, West Sussex.

I refer to the above and to our recent telephone conversation following my letter to you dated the 27th January 2011 regarding a change to the approved materials on certain elevations.

I enclose the completed Forms together with three copies of the layout plan which shows by red line the elevations for which a change is proposed and you will see that they are not the principal elevations but those which are either in the case of the garage to Plot "B" adjoining the high common boundary wall or in the case of Plot "A", the two storey rear elevation and the single storey elevations that adjoin the common boundary.

It is intended to substitute the coursed pebble with Swanage Light Red stock bricks being those previously approved for the dwellings, and retain the stringcourse feature by corbelling the brickwork to provide continuity.

I trust that the amendments proposed in relation to the materials are satisfactory and I look forward to your response.
