Dear Mr Dowling,

Following our telephone conversation of yesterday, I can confirm that in order to properly assess the above application, we would need-

(i) Confirmation of the proposed colour of the upvc units to be installed - i.e, dark wood effect, the same in appearance as the existing timber

(ii) Details/a schedule of the proposed changes to the openings of windows, to show the location of the proposed fanlights etc..

I would be grateful to receive the above by the 26th April so that a decision can be issued by the 5th May when the application expires.

Kind Regards,

Amelia Stroud
