Dear Mr. Stevens

Further to your request, I have pleasure in giving the following quotation.

The tree was inspected from ground level. The tree appears in good health and there are no obvious signs of immediate threat or danger. The tree bifurcates at approximately six foot and is not a particularly strong union. The crown is encroaching on the garage and the neighbor's house to the West. With these two observations in mind I would recommend a crown reduction of 2½ m back to the previous pruning points.

The above works to be carried out for the sum of £300.00 plus vat.

Yours sincerely

Edward Hackman
