Clearly it was built higher than planed, reading the plans wrong I don't buy that, building like this are fabricated in advance..

Appealing that it will cost money to lower it, that's the game there playing. If it's too high then it's it's too high and will need to be lowered, so you should reject this application, it should be lowered as planed in the first place.

Your views as made above will be considered before the application is determined.
