Dear Sirs,

Re 43 Felpham Way Bognor Regis The Felpham Club
Planning Application FP/ 69/18/PL

We note the Planning application as mentioned and cannot understand the retention of the planning as far as we are aware no planning approval has been given for the extraction units or the decking .

The smell stronger on some days and somedays we can't open windows because of the smell.
Sitting in our conservatory last week the smell was awful it made my wife feel ill so we had to close the door.
We are not looking forward to summer having to close doors and windows it is not going to be pleasant
On occasions the extractor fan noise is so loud we have to close doors.

We now have problems with Rats coming over the fence from the Indian and on warmer days we have a large number of bluebottles also coming over the fence

Also we had the fence blew down which we complained about they came round to fix it but is still just a bodge
