Subject: Planning Application - FP/70/18/HH - 77 Crossbush Road Felpham PO22 7LZ

Hello

We live next door (75 Crossbush Road) to this property and were viewing the plans on the portal yesterday.

Please can you advise how we can view an original version of the plans ie with specific measurements/dimensions? We cannot tell from the plans how close the proposed development will be to our property as it looks like there is a reducing distance to the boundary on the south side. We also cannot tell what the specific dimensions of the new windows are that are being planned that overlook our property.

We also have a concern that one of the drawings showing the 2 plots (ie our house and next door) is not an accurate representation of the current building line. Can you advise when and how we raise this concern?

Thank you,

Nicky Dufour
