Further to the planning application at Kenwood Court, 6, The Midway, i would like to raise a few concerns.

Firstly there were no yellow planning application signs put up outside the property alerting us to this application. Everyone who lives in the Midway or the Grove agrees with this. Granted, there was one put up when the application was first put in which got rejected, We only learned of the new application by a resident in the Grove.

Secondly, when the first application was rejected, there were not as many objections as this time which seems very concerning. The plans have changed, in fact the Car Port is bigger which again is very concerning seeing the application was rejected in the first place.

NINE people put in objections which you all received by close of play on the 19th of May, the last day an objection could be lodged.

Please could you explain to me Amber how you came to this decision after it was first rejected.

Kind regards,

Philip Sayers (Flat 1, Kenwood Court 6, The Midway)
