Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☒ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

Bognor No.5

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

T7 Holm Oak - Has a two-foot split in one of its branches which will eventually fail. Remove branch and conduct a 25% thin throughout the rest of the crown. Height after pruning 7 meters and width 6 meters.

T9 White Poplar - Now that a single branch has been removed and surrounding trees pruned (approved under FP/227/14/T), we can see that further pruning is required to reform its shape. We request a 25% (2.5 meter) reduction. Height after pruning 7 meters and width 6 meters.

Large pine (see attached map and photos) - A lower branch (on northern side) has split and is leaking sap. See attached photos. We request a 25% reduction and crown lift 2 meters to balance it. Its lower branches are over 100mm wide. We've been advised this branch is not dangerous. However, as a company responsible for the tree, we believe there is a risk children may try to climb up it are therefore marking it as 'dangerous' on this application.

8. Trees- Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.
