Hi Kenny,

The MUGA Blakes Mead Revision G shows the 5-a-side pitch in grass, not tarmac with a larger floorspace than the approved plan. If this is what you wish to implement, it will likely need a new planning application for amendments to approval FP/151/11.

If you wish to get this discharged, I suggest you amend the floorspace to the approved design (2 pitches) and tarmac it as per the plan.

The Approved Layout plan of the double neap and community play area is not the correct plan to put the ball stop fence location on. You will need to submit an amended 'as built' plan to put that on, so that we can discharge what is actually there, because it was all built differently to the approved plan.

I hope this is helps.

Kind regards,
Karen

Hi Kenny,

Thanks for the specification. I need the plan of where it is to be sited please.

Also still require the 5-a-side pitch tarmac plan.

Many thanks,
Karen

Hi Michael/Karen,

Please find the attached specification of the ball stop fencing of the junior sports pitch and with the additional information below email. Thank you.

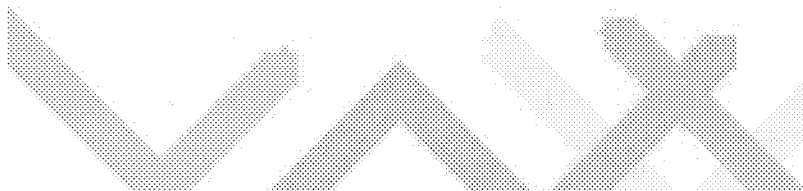

Kind Regards,

Kenny

EXTERNAL EMAIL WARNING

Please do not click on LINKS or ATTACHMENTS where you are unsure of its origin. In such cases delete the email.

Thank you once again for your recent enquiry in connection with the above.

We have great pleasure in submitting our proposal and quotation for your anticipated requirements as follows:

Budget Quotation BQ240919/1

Provide all necessary materials, labour, supervision, plant and equipment to supply and install 50 lineal metres of new 5 metre high Ball Catch Netting comprising:

- Posts: 5800 x 100 x 50 x 3.5 mm galvanised steel RHS sections, set 5 metres above and 800 mm below ground in 350 x 350 x 700 mm concrete foundation at 5 metre intervals
- Netting: 120 x 120 x 2.5 mm black, knotted, UV-stabilised football netting. Netting manufactured with outer overlapped edge seams plus an additional 3 no. horizontal seams for attaching to 5 no. galvanised steel linewires with stainless steel fencing clips.

For the total sum of £ 8,000.00

NOTES:

The posts and concrete foundations of our netting systems are structurally designed (BS6399 part 2) to take account of the wind loading at the site's particular location. Calculations can be made available without charge with order.

TERMS:

- Prices subject to a site visit as they are based upon good vehicle access and digging conditions throughout the fenceline
- Prices quoted exclude VAT
- Delivery 3-4 weeks from receipt of order
- Duration on site 4-6 working days (uninterrupted) to complete
- The identification of any underground or otherwise hidden cables, services, ducts or other voids to be the responsibility of the client. We will utilise our best endeavours but cannot be held responsible for any immediate and/or consequential losses for damage to any hidden apparatus.
- Payment due upon receipt of invoice following satisfactory completion

Please feel free to get back in touch if you require any additional information or clarification

Best Regards

Bernard J KilBride
