I strongly object of the 3 bedroom house being built at the bottom of my garden.

1. I have already lost the privacy that the mature trees and shrubs gave me with nesting birds and other wildlife .
2. Being overlooked as I am at the moment so a property that is even closer would be much more invasive.
3. Not in keeping with the rest of the houses in the close , would very much look out of place.
4. All the insufficient infrastructure that goes with building a house where there are problems already with parking,sewage, flooding ,and access for emergency vehicles.
6. Noise and pollution caused from a building site .
