Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☒ No

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

We would like to remove the bay tree, in our front garden, which is pushing over our boundary wall and is now leaning dangerously into our neighbour's property. We have considered putting a lintel in the wall, removing the

bricks underneath, but are concerned that this is not a permanent solution. As the tree continues to grow it will encroach onto our neighbour's property.

As the tree is diseased (please see attached report), remedial work reducing the height of the tree will not ultimately solve the problem and the resulting regrowth will not provide amenity value.

We would be happy to plant a replacement tree in the front garden, away from the wall but in a position closer to the boundary to provide amenity value.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

My husband, who has a national diploma in landscape construction, has over 35 years' experience in the industry, much of it in the local area. Given our location, he suggests planting an *Amelanchier lamarckii*, many of which are planted in the village and show no ill-effects from coastal winds, or perhaps an *Arbutus unedo* (which has foliage of a similar colour and size to the *Lauris nobilis*), although we would welcome guidance from Arun District Council re. species.
