Q12908 Canopy Size: 6m x 6 m

Ref: Able10057

- Use:-** To provide cover from the weather by means of installing a canopy outside the building. The canopy shown creates a covered external area and protects its users from the weather enabling additional usage for outside areas.
It will benefit all users within the school during their opening hours.
The waterproof fabric material provide ultimate protection from the sun, so the children can play outdoors during the summer in safety.
- Amount:-** The proposed canopy required relates to the permitted outside area of the school enabling outdoor area use. The canopy will enhance the outside play area allowing usage in all weather. The canopy will not impact on neighbouring properties.
- Layout:-** The canopy is freestanding. The location for this canopy has been chosen because it will expand the learning and play area for this school. The canopy is accessible from both ends and from the front allowing adequate and easy access for all. The canopy provides excellent disabled access.
- Scale:-** We have kept the size of the canopy in keeping with the existing building and play area. The size and shape of the canopy will not create any restrictions to the site.
- Listed Building:-** The canopy will not attach to, or impact on, any building with listed status.
- Landscaping:-** The landscaping area surrounding the canopy will be unaffected. No trees will be affected and no pruning will be required. The canopy will not affect or reduce the landscape around the construction.
- Appearance:-** The canopy is constructed from 139mm x 6mm tubular steel Posts (219mm x 8mm) which will be powder coated yellow green RAL 6018. Fabric yellow
- Access:-** The canopy will have no impact on public transport and will not have a detrimental effect on site access. The canopy will have no impact on the movement around the site to non-vehicular traffic.
