From residents of The Willows Mobile Home Site.

To whom it may concern

We wish to strongly object to the construction of 5 bedroom flats with staff accomdation.

We don't think any thought has been put into this planning application.

If built,you will have constant noise from trains,from 5am until and up to midnight each day,you will have at least 16 trains per hour off-peak,also empty rolling stock for cleaning at Littlehampton,during the night.

Our propertys shake now,with the vibration of trains traveling over the points and crossing at the point where you are going to construct these new flats.

These new flats will be overlooking and become intrusive,to some of the residents properties of our site.

Are the trees going to be removed from the railway bank, where the property's are going to be erected,if so this is going to create more noise from the trains passing each way.

are premises are located. מגורים נפרדים

R-67-00-000

Where are all these extra vehicles going to park or is there going to be a road built beside these new property's?

Then we will have to endure all the building noise, from all the OF various types of labourer's all day long plus all the muck and dust flying through the air, on to our property.

These with you, the day next

There are a lot of people, who have health issues on our site who are also house-bound and moved here for peace and quite, for which they are advised to try and have some sleep during the day.

more or less significant must be the result of the process of socialization.

We accept that some of the patients are sometimes noisy, but we accept this, because it is not their fault, because of their illness.

1947-1948

Please find attached the following names from "The Willows of Mobile Home Site" only to be used for the purpose of the 1990-1991 audit.

הרשומות הן חלק מהמסמכים המוגדרים להגנה על המידע.

These two lines will now be fed into the *lumpsum* cell.

the 1990s, and in the 2000s, the number of people in the labor force has increased by 10 million.
