Hi Paul,

Is this information now sufficient to discharge the condition?

Thanks

Anita

Hello Anita & Paul,

Please see a copy of the final SuDs report from UNDA ref. South Yard, Wicks Farm, Ford – F/10/20/DOC.

Many thanks, John.

Good Afternoon John

I hope you are well.

Please find attached the updated surface water drainage strategy for South Yard B Wicks Farm addressing points 1 and 2 of consultation response F/10/20/DOC (dated 18th May 2020).

As mentioned, I managed to speak to Sarah Burrow (Drainage Officer) on Friday and she confirmed that any proposed soakaway should be located at a depth of 1.77mbgl, to reflect the depth of in-situ testing, and should be sized based upon an infiltration rate of 5.54×10^{-5} m/s applied to soakaway sides only.

In light of Sarah's comments I have resized the soakaway based upon lateral infiltration only. Utilising sides only within the calculations has resulted in a larger soakaway being required at the site. Revised calculations indicate that sufficient storage required to attenuate runoff from the proposed warehouse roof can be provided within a cellular soakaway structure of dimensions 100m² x 0.36m deep x 0.95 (void ratio).

If you have any questions please do not hesitate to get in touch.

Kind regards
Tom

Hi John

I spoke to Sarah Burrow (Drainage Officer) on Friday and confirmed the side infiltration rates to be used for the new soakaway sizing.

I am currently recalculating the soakaway on this basis and aim to have the report sent across to yourself by the end-of-play tomorrow. You can then send this onto all relevant parties.

Kind regards

Tom

Hello Thomas,

Just to confirm that the deadline for this is **Wednesday 24th June 2020**.
Please make sure that your response is with Anita Gardner at ADC by then.

Many thanks, John.

Good Afternoon Anita

Thank you for your email.

Thank you for providing contact information for the drainage engineer. Unfortunately Sarah Burrow did not provide her contact details on the formal consultation response therefore it has been difficult to get hold of the relevant people.

Given that Paul Cann will not be in the office until Monday would it be possible to get Sarah's number, so I can attempt to call her today? I am keen to get this issue resolved as soon as possible and ideally require agreement of infiltration rates prior to resubmission.

Thank you in advance.

Tom

Dear Mr Smith,

I am not an Engineer and can't provide advice on suitable infiltration rate to utilise for the deeper SuDS sizing so I suggest that you speak direct to Paul Cann in Engineers, but he is not in the office this week. His phone number is [REDACTED]. If the matter can't be resolved quickly, with receipt of additional information by Wednesday next week the application will be refused unless it is withdrawn.

Regards

Anita Gardner

Good Afternoon Anita

I hope you are well.

I am the drainage consultant working on the drainage strategy for South Yard B Wicks Farm (F/10/20/DOC). I have been passed your below comments by our client and was hoping you may be available sometime this afternoon to discuss point 1a of surface water drainage consultation response.

I am aware that the determination date is fast approaching and would like to agree upon a suitable infiltration rate to utilise for the deeper SuDS sizing. I am keen to address the council's concerns as quickly as possible so that we can ensure the development meets Arun District Council's requirements and does not receive formal objection.

If you would be kind enough to give me a call back today on 077960159829 that would be much appreciated.

I look forward to hearing from you.

Kind regards

Tom

Dear Mr Hall,

I believe that I am still awaiting the requested additional drainage details. I cannot keep the application open awaiting receipt much longer so unless the requested information is submitted by Tuesday (23-06-2020) next week I will have no alternative other than to refuse the application. Alternatively you can request withdrawal of the DOC in writing and re-submit at a later date when the information is available.

Regards

Anita Gardner
