8 November 2019

Dear Sir, Madam,

Circular Technology Park (Former Ford Blockworks), Ford Airfield Industrial Estates, Ford

Lorry Routing Agreement (New Access Road)

As you are aware, planning permission ref. WSCC/027/18/F was granted by West Sussex County Council in August 2019. This permission authorises the implementation of a new access road to serve the Circular Technology Park and its associated waste management operations.

Due to the nature of the operations at the Circular Technology Park, the vehicles visiting the site mainly consist of large vehicles/lorries, but it is recognised that it is important to minimise the impact of their use. Hence, large vehicles travelling to and from the Circular Technology Park shall only use the route shown by the red line and arrows on the enclosed plan. The new access road is currently under construction and should become operational from the beginning of December 2019.

All the lorry drivers coming to and from the site will be required to abide by the prescribed route from the date the new access becomes operational, but in order to ensure that this agreement is complied with, if you see our vehicles on the local roads where they should not be travelling, please inform us by contacting Grundon's Estates Team or [REDACTED]

Should you not be satisfied with the response given to you or for any other reasons, you can then contact an Enforcement Officer within West Sussex County Planning Team or [REDACTED]

Where possible, please can you inform us of the location, time, description of the vehicle(s) and registration number, when reporting it.

Should you have any concern at this stage or have any queries, please do not hesitate to contact us.

Yours faithfully,

[REDACTED]

Veronique Bensadou
Senior Planner
