Subject: RE: F/12/19/PL - Unit 1, Bullocks Yard - Further Information request

I have reviewed the additional information but unfortunately the applicant has not addressed how they will manage their own noise. I would like to see plans that identify the noises that they might create i.e. engine revving, general vehicle noise, impact sounds etc and how he proposes to control them.

He has confirmed that he will be using a licensed waste company and will keep their transfer note so this element of my request is satisfied.
