EH Comments:

I have reviewed the technical report by Ardent ref:2205773-R06A dated 18/05/26

The report covers most of the points previously raised however there are still a one area that needs further consideration.

The report states “localised screening will be installed where works which will generate significant noise levels are proposed within 4 of dwellings and so this removes the need to identify and react to periods of exceedance”.

My concerns with the term “significant noise levels” is very ambiguous and can mean different things to different people.

If localised screening is utilized whenever any heavy machinery is used, within 45m of Nos. 1-7 Wicks Cottages and Nos. 20 & 26 Beagle Drive, I would have no further objections in relation to noise.
