Further to my previous consultation comments, the proposal is considered to be harmful to the non-designated heritage assets. The impact can be described as causing less than substantial harm and is on the lower end of the scale. As such, you will need to consider the public benefits that the development may achieve as part of your assessment of the application.

I have reviewed the revised plans and since they do not appear to have been altered, I have no further comments to make at this time.
