APPLICATION NO: F/19/18/EIS

The Heritage Desk-Based Assessment and the report on the geophysical survey already produced comprise a comprehensive review of the likely archaeological interest, and these reports should be included in any Environmental Impact Assessment. There would be nothing to be gained from any further assessment at this stage.

I tend to agree that the archaeological potential that has been identified should be evaluated by trial trenching ahead of determination of planning permission for the proposed development.

James Kenny
