

Application No: F/19/25/OUT

I agree with the conclusions of the Desk-Based Assessment with regard to the likely archaeological potential of this site. I also agree that it would be appropriate for this to be evaluated by trial trenching, in advance of development, in order to identify significant deposits that might be present and to enable the implementation of appropriate measures for their preservation, i.e. either in-situ or through further investigation, recording and publication. This process would be best secured via the imposition of a version of standard condition ARC 1 as follows:

No development shall take place until the applicant has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted by the applicant and approved by the Planning Authority.

James Kenny
