

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Subject: RE: Planning Consultation on: F/1/21/PL

Dear Anita,

Thank you for consulting us on this application. We have the following comments on surface water drainage.

We have no objection to the change of use application from a drainage perspective.

Should the application be successful and future more detailed applications be submitted we will require supporting information to be supplied regarding drainage. Further detailed information would then likely be secured through our standard drainage conditions. Further details on our requirements for avoiding pre-commencement conditions can be found in our guidance notes and checklist which are located here: <https://www.arun.gov.uk/surfacewater>.

Kind regards,

Laura Gibbons

Drainage Engineer

Engineering Services

Please note that I work Tuesdays 08:00-16:00 for Arun only.
