Subject: F/15/16/PL Application for approval of details reserved by condition

Hello Anita

I attach the details for an application for approval of details reserved by condition 3.

Regarding Condition 4, specifically regarding the requirement for protection of existing trees and shrubs to be retained on site, the site is clear and consists only of waste brush land, therefore there is no protection required, and close boarded fencing has been erected around the site to protect anything beyond the site during construction works.

I trust this is all OK, and look forward to your approvals.

Kind Regards

Jeremy Napthine
Director
