Subject: Planning condition No. 4 re- F/26/17/DOCS site at Northwood House, Burndell Road, Yapton

Anita

Tried to communicate with you unsuccessfully yesterday to talk about you requirements relating to condition 4
Attached is a copy of the site drawing that shows all of the relevant information on the foul and surface water drainage
That you requested, if there is any additional information you require just give me a call.

This drawing has now been passed to the Suds man and the 1 in 100 year storm event should be with you in a couple of days

(I will let you know the exact timing when I get his initial feedback)

Regards Ken Watkinson
