Hello Anita,

Following up on a couple of points ref: F/30/18/PL

#### **WSSC – PROW Footpath 355**

- There is absolutely no intention to block or obstruct the pathway that adjoins this planned horticultural development.

### **Surface Water Drainage**

- A full and detailed Flood Risk Assessment has already been carried out by the Civil Engineering Practice.
- Over-flow water from the reservoir will be discharged to adjoining drainage ditches that flow to the River Arun.
- Network Rail have been informed of the construction of the reservoir.
- Infiltration and percolation tests, capacity and freeboard calculations will be dealt with at the detailed design stage for the reservoir.

We would happy to fully comply with any of these points under “Conditions”.

Many thanks, John.
