Subject: Planning Application, Ford Depot, Environment Agency. Reference - F/4/19/PL

Good Afternoon Mrs Johnson,

Regarding my recent application for planning permission, Reference F/4/19/PL, at Ford Depot please find attached an additional Location Plan, scale 1:2500.

You stated that the incorrect application form has been filled out. Could you please advise how to change this to the correct form on the planning portal, since there seems to be no way of changing the type of application whilst keeping all the details.

Regarding the flood risk assessment I have spoken to the Partnership Strategic Overview Team and the Asset Performance Team at the Environment Agency and there are no concerns regarding flooding for this structure as it is in the Asset Performance Field Team Depot. Therefore I do not think a flood risk assessment is necessary and would appreciate it if this requirement was waived.

You have asked for the additional details to be provided by the 11th February 2019. I am on annual leave from the 30th January 2019 – 18th February 2019. Hopefully this application will be successfully submitted by the 30th January, however if for any reason it cannot be successfully submitted before this time can the application be left open so that any problems can be resolved when I return to work.

I am happy to pay the remaining £28 that is owed if the application can remain open past the 11th February, assuming the application isn't completed before the 30th January.

If you have any queries please feel free to contact me.

Thank you for any assistance in this matter.

Rob Duke
