There is a huge sewerage pipe that runs right through the middle of the airfield which comes from Bognor I remember laying it. Have you stood near the sewerage works on the airfield it smells why would anyone want to live there. The airfield never floods due to the original very old drainage system which works very well on the meeting with the developers last year they said they are going to dig it up & they are going to replace it with balance ponds and storm storage it will never work. What happens if the sewerage pipe bursts as the plan shows houses are being built right over or right next to pipe. Listed building which many will be protecting. The local road network will never cope its over populated already due to all the other building sites due to start or ongoing at the moment.

Your views as made above will be considered before the application is determined.
