This application falls within CIL Zone 1 - Zero Rated.

Thank you for your internet representation made on 13th March 2021 which has been recorded as no objection with the comments as follows:

OWPC34468

Further to the representations made by the Friends of the Old Ford to Hunston Canal (17th January), and by many others, I acknowledge the enhancements made to the "The Landings" Masterplan document with respect to reflecting the historic alignment of the Canal, and to using this heritage asset as a focus for establishing green routes through the new development.

It is disappointing that the Masterplan's maps and text have omitted to refer as well to the line of the Canal to the east of the Grundon site towards Ford Road and the River Arun, which is still well within the development boundaries.

At the north-eastern corner, currently labelled "Formal Open Space", there is an opportunity to include a

significant water feature to tangibly demonstrate the former canal heritage. This could include a rectangular pond simulating the dimensions of the old canal (c. 10m wide by say 50m long).

I suggest this proposal is included in outline now, in advance of the detailed design stage, rather than taking the current minimal approach such as placing a few information signboards, given such a strategic site and its unusual opportunities.

Earlier representations highlighted the ongoing proposal supported by Sustrans and others to support a Greenway for non-motorised users, pedestrians, cyclists, and horse riders, through the development and the Canal route. Given the many representations on this, I look forward to its inclusion in the detailed design stage as well.

Your views as made above will be considered before the application is determined.
