Thank you for your internet representation made on 13th March 2021 which has been recorded as an objection with the comments as follows:

OWPC34470

1- Since this site was nominated in Arun's Local Plan for housing it has also included other elements such as a primary school. Then a secondary school has been proposed but the nominated site is on an adjoining field. If the whole site was now taken into account it would make more sense to locate the schools near each other. They could share facilities/parking/open space. They should also have better access to a main road. This current plan shows a vague 'access' to the secondary school site after following a route through the housing estate. If both schools were sited in the southern area of the site there would be better access from the Yapton Road.

2- There is still insufficient acknowledgement of the route of the historic Portsmouth/Arundel canal. There could be a much more imaginative waterway included as part of the open space near Grundon that would at least reflect the shape of the canal and provide a natural habitat.

Since this is still an outline proposal it must still be possible to update the plans to ensure that the best possible solutions are found to these important requirements.

Your views as made above will be considered before the application is determined.
