Comment from Greenspace

Further to receipt of David Hares Landscape Plan, Planting Plan10/Feb and Plant Varieties 10/Feb, I can confirm that this provides the clarity on information that was lacking and therefore being suitable in content/location/species/mix/densities and size at time of planting I confirm that I would now **recommend the discharge of Condition 9 Landscaping** on this application F/6/20/DOC imposed under application F/30/18/PL

Comment from Greenspace

Further to receipt of planting detail contained in the Planting Schedule detail 06/03/2020 I can confirm that the information submitted does provide suitable planting detail in species mix, size and planting densities.

The application references Planting Plans contained within the LVIA + App.1 + **Planting Plan**, which I am unable to find. Please can the planting plan which show specifically beds 1 – G7 relating to the planting schedule be made available, so as to avoid any doubt of location for planting proposed.

On submission and agreement of plan requested above I would then be happy to recommend the discharge of Condition 9 Landscaping on this application F/6/20/DOC imposed under application F/30/18/PL
