Dear Sir/Madam,

Consultation from West Sussex County Council

Application No: F/6/21/WS
Site Address: Ford Circular Technology Park Ford Road Ford BN18 0XL
Description of works: Demolition of existing buildings and structures and construction and operation of an energy recovery facility and a waste sorting and transfer facility for treatment of municipal, commercial and industrial waste, including ancillary buildings, structures, parking, hardstanding and landscape works.

Thank you for your internet representation made on 20th May 2021 which has been recorded as an objection with the comments as follows:

OWPC36466

I wish to strongly object to this development. I have recently moved from living in an area a similar distance from such a facility. We were reassured with that development that there would be no strong smells or other nuisances due to its modern design. This proved not to be the case and residents and businesses were severely impacted by the smell, and huge increase in traffic. House prices in the area understandably were negatively impacted.

I feel this proposed development would have the same issues - smells could not be guaranteed not to be caused, and traffic would increase substantially on roads which are already overstretched.

There are a huge number of homes planned for this area. The proposed development would spoil views, increase traffic further, smells would be generated - all things which would put people off moving into the area AND substantially have a negative impact on house values.

While I know these facilities are required I feel they should be placed in more industrial areas and away from residential developments.

Your views as made above will be considered before the application is determined.
