Dear Sir/Madam,

Consultation from West Sussex County Council

Application No: F/6/21/WS
Site Address: Ford Circular Technology Park Ford Road Ford BN18 0XL
Description of works: Demolition of existing buildings and structures and construction and operation of an energy recovery facility and a waste sorting and transfer facility for treatment of municipal, commercial and industrial waste, including ancillary buildings, structures, parking, hardstanding and landscape works.

Thank you for your internet representation made on 27th May 2021 which has been recorded as an objection with the comments as follows:

OWPC36816

Incineration is one of the worst ways of generating energy because of its effect on climate change. These emissions include dioxins, NOx and ultrafine particulate matter that can be harmful to both human health and the natural environment.

There is nothing to suggest these emissions will not have a detrimental effect on the community, whether they be local or further afield. Surely then far too late to decide the incinerator has caused serious health problems.

The visual impact of this high building is yet another blot on a beautiful landscape, the South Downs National Park etc.

Building in this area, do the developers believe all the pollutants will be blown away safely on the wind, they will have to land somewhere?

Not one of the local roads would be able to cope with the extra HGV movements being proposed. Councils do not repair the already damaged roads in this area. Any future damage to public health, the environment, roads will take many years to be fully assessed and repaired.

Your views as made above will be considered before the application is determined.
