To: Agency Dan McEwan
Subject: Ref Application F/7/15/OUT

Dear Mr. McEwan

You may notice that I have recorded an objection to the above application. One of my main concerns is the realignment of the road and the very negative effect it will have on our property. I note that once again the transport assessment states that the layby is not used. To lay that I attach a photo I took this week of the layby that speaks for itself. It may be as well to point out that from the information I have I am under the impression that the layby was constructed to comply with conditions imposed on the outline planning consent for the bungalows. It may be as well to check the previous planning history for the area to confirm.

I would be very happy to meet you here should you wish to discuss any of these should you wish. I will be away for the best part of next week but should be available most days week commencing Monday June 8th.

Yours
John Stanton
