Dear Marie

Thank you for the plans on the attached email. Unfortunately I am unable to accept them in the current format, please send as PDF attachments.

Please also provide a photo clearly showing the existing driveway, kerb and the area for the proposed additional driveway.

Kind Regards

Nicky Moore

Dear Nicola Moore and Neil Crowther,

Many thanks for your email regarding additional information for our request of lawful development for a proposed driveway.

Please find attached as requested:

Image 1 demonstrates an overview of the development and is a preliminary scale. Our plot is highlighted in red (Plot 147)

Image 2 shows the Land Registry official copy demonstrating the North direction as per arrow in top right arrow and scaled as requested

Image 3 shows a zoomed in copy of our plot 147. We have highlighted in green our current driveway and out proposed driveway in red.

The dimensions of the red proposed area is:

90cm at the narrowest point at the rear

1000cm in length on both sides

Entrance at the access point from the road is 420cm wide

As the images show, our property is detached and a no through road.

As previously mentioned should we be successful, we will be using permeable bricks to match the neighbours driveway and we have the same dropped kerb as our existing driveway.

We appreciate your assistance,

Kind regards

Marie & Aaron Marshall
